WORD OF THE EVENING – gamut (GAM-uh) *noun* - The complete range of something.

ORIGIN: [From Medieval Latin, contraction of gamma ut, from gamma (third letter of the Greek alphabet), used to represent the lowest tone + ut, from the names of the notes ut, re, mi, fa, sol, la, si (ut and si later changed to do and ti). Gamma + ut contracted to gamut and the meaning expanded to denote all notes. The names of the notes are derived from the initial syllables of a Latin hymn.]
